WILL EXAMINE MULES' LEGS. Judge Sidener Wants Positive Evi-

dence of Lameness. Judge Sidener this morning will examine

the legs of two mules and then, if living, will decide whether Grant Emerson, a negro, is guilty of cruelty to animals, Emerson appeared in the First District
Police Court yesterday morning charged
with working a mule the legs of which are
said to be sore. Emerson had a letter,
sized by a veterinary surgeon, which state
of that the mule is in good condition.
Judge Selerer was not satisfied, and suid:
"I'm from Missouri. Bring the mules
around back of this courtroom to-morrow
morning at 3 o'clock and show me. Bring
both of the mules, so that I may not be
looking at one that is all right, while the
mule that is lame is in the stable. I know
something about mules, and I'll bet I don't
get kicked while examining their legs."

Grandon had a cigarette in violent erup-tion in his mouth when the officer gave chase. The pursuit led toward the eastern suburbs. Grandon climbed over a fence and ran into a woodland pasture, where be hid behind some bushes. The night was dark and the policeman might have lost him then and there, but the fugitive would not put his eigarette out, and the light from it directed the policeman to his quarry. and affiliated with the board.

He said the Water Department has been well-conducted, though the water has seemed to have an excessive quantity of sediment. He suggests that the new settling system may demonstrate a method for providing clear water at no great expense. He complimented the work of all the other departments, except the Department of Public Buildings, in which progress has been slow, due, according to the chief, to the small force of assistants employed.

DENIED A BUILDING PERMIT. West End Heights Company's Pavilion in Question.

The large entertainment pavilion of the West End Heights Amusement Company at Clayton and McCausland avenues is the cause of trouble between the company, the cause of trouble between the company, the Department of Public Buildings and the Board of Appeals of the same department. The building was erected without a proper permit, officials of the department contend, and a permit was refused after the structure was completed.

The board yesterday sustained the department in denying a permit, and the case will probably be taken into court. The penalty for erecting a building without a permit is a fine of \$500.

THREE ISSUES NAMED BY THOMAS TAGGART

Doctor Russell Wilson of Ohio Was | Tariff, Trusts and Imperialism, Indiana Democrat Thinks, Are Paramout.

CONDEMNED BY COURT-MARTIAL PLATFORM FOR PARTY VICTORY.

Former Mayor of Indianapolis Not Talkative About the National Chairmanship-Says Bryan May Become President.

Thomas Taggart, former Mayor of Indianapolis, Democratic National Committeeman from Indiana, spent vesterday in St. Louis in company with S. E. Morse, editor of the Indianapolis Sentinel, and Consul General to Paris under the Cleveland administration. Mr. Taggart left last night son, United States Consul at Managua, for El Paso, Tex., where he will spend about three weeks recuperating. Mr.

Morsa returned home. While both of them were in the city on business they found time to visit some of the prominent Democratic politicians, Including ex-Governor Stone. Mr. Taggart, or "Tom" Taggart, as he is better known, is mentioned as a possible candidate for chairman of the next Democratic National Committee to succeed Senator James K. Jones of Arkansas.

"It is too far off to discuss the next chairmanship," Mr. Taggart sald yesterday, "My friends have been kind enough to mention my name in that connection, but, of course, it cannot pass the complimentary stage. The Democrats of Indiana are chiefly conerned in carrying a few of the congresdonal districts now held by the Repub-Beans. I think we can do it and will leave no stone unturned to do so.

"We are making our fight chiefly on State stuce. We made no reference to the Kansas City platform in our State platform, but enunciated some principles which are distinctly Democratic. I think that the issucs two years hence will be the fariff, trusts and imperialism. As the second is so vitally mixed with the first, the two might almost be considered as one. Im-perialism, while it will not occupy the cominent place it did two years ago, will be an essential feature of the campaign.
"As for Mr. Bryun, he has a brilliant uture before him. Even though he may not be nominated in 1904, he will have am-ble time to be a President of the United States. He is young vigorous, and no one doubts his personal or political integrity. He has the right sort of stuff in him, and it is bound to be appreciated in time."

CONGRESSMEN LOOK AFTER FENCES

Both Joy and Bartholdt Will Spend the Summer in St. Louis. Congressman Richard Bartholdt is ex-

pected back from Atlantic City the latter part of this week to begin his campaign for re-election. It is said that he will not take his customary trip to Europe this year. It is reported that a serious condition confronts him in the Tenth District. here his old factional opponents may nite to help the Allied Third party to de-at him for re-election. Though the dis-ict is Republican by about 6,000, a defection from his own party might easily im-pair his chances, as the Democrats of the Tenth are united. Congressman Charles F. Joy has been in

Tenth are united.

Congressman Charles F. Joy has been in town about ten days mixing with the politicians of the Eleventh District. His friends claim that he will have no opposition for the nomination, though it is possible that National Committeeman Kerens may bring out a candidate in the list week, as was done when Congressman Eartholdt was renominated. The convention in the Eleventh will be held August II.

The Republicans in St. Louis will hold their convention after the Democrats. The publication of the pian whereby some of the candidates expect to profit by the help of Lee Meriwether has made the St. Louis Republican candidate suspicious of others. It is said that the St. Louis Republican Club will put up a vigorous primary fight for the control of the City Convention. As the Kerens forces control the City Committee, it is very doubtful if the Vahdeventer organization can do much. The City Committee would name the temporary officers of the convention. The men running on their tickets in the wards would be seated in the temporary organization and thus control the Credential Committee.

In that case, no great stretch of the magination is needed to guess that the St. Louis Republican Club delegations will be hustled out of the way by a series of contest decisions. There will be no such vaunted fairness as the Akins faction displayed in the State Convention in Jefferson City.
